

PATIENT PORTAL AUTHORIZATION

Georgetown Pediatrics, PSC now offers our patients a new on-line patient portal that allows you to easily access your child's health information. This new on-line portal is a secure way for you to receive timely health information quickly from your doctor, such as lab results, visit summaries, medications prescribed, and immunization records. You will also have the ability to update your contact information and view upcoming appointments. Please take advantage of this new feature, it's easy, it's fast and secure.

Your signature below authorizes us to activate an account for you and to send you an email that will provide you with a link to our portal. You will be asked to enter demographic information to verify your identity, a user name will be assigned to you, and then you will be prompted to select your account password and a custom security question. Please be sure to remember your User ID and password.
